LEON ISLAM SAGOR

UI/UX Designer

Board Bazar, Gazipur, Bangladesh | +880 15 4000 1703
islamleonsagor@gmail.com | leonislam.bd | linkedin.com/in/leonislamsagor

PROFESSIONAL SUMMARY

UI/UX designer moving from more than four years of commercial print design into digital product design. I design interfaces in Figma and build them in semantic HTML, CSS and JavaScript, so I always design with implementation in mind. Print trained me in exact measurement, colour, type and deadlines. I am especially interested in Bengali typography and in how users think, hesitate and decide. Looking for a junior UI/UX role.

PROJECTS

- **NUHelp** (HTML, CSS, JavaScript): live bilingual guide site for National University students, 18 service guides and 42 pages in Bangla and English. nuhelp.info
- **MediPulse** (HTML, SCSS, Bootstrap 5): admin dashboard template for clinics with 45+ pages, 3 dashboards, light and dark modes and RTL support. Live demo and Gumroad listing. leonislam.bd/work/medipulse
- **BoostParcel** (React, Tailwind): Bengali-language courier operations dashboard, 6 screens with sample data. Live demo. leonislam.bd/work/boostparcel
- **Author Website Redesign** (Figma): concept redesign of a Bengali author's archive site, with an interactive desktop and mobile prototype. leonislam.bd/work/author-website

CORE SKILLS

- **UI/UX Design:** Figma (Auto Layout, Components, Prototyping, Design System), dashboard and web app design, exact layout and spacing
- **Front-end:** Semantic HTML, CSS (Flexbox, Grid) at an intermediate level, JavaScript, Bootstrap 5, SCSS, responsive and RTL layouts, React and Tailwind CSS (basic)
- **Typography & Colour:** Bengali typography, Arabic type, CMYK colour separation, print-to-screen colour thinking
- **Design Tools:** Adobe Illustrator, Adobe Photoshop (vector artwork, layout, colour work)
- **Also:** Print-ready files, MS Word and Excel, PDF editing, Bangla (Bijoy) and English typing 35–40+ WPM

PROFESSIONAL EXPERIENCE

Print Designer | Modina Deco Tiles, Gazipur *April 2026 – Present*

- Create decorative artwork as precise vector files and large-format print files, to exact measurements
- Building UI/UX and front-end skills alongside, in Figma, HTML, CSS and JavaScript

Computer Operator | Jannat Computer (Public Service Shop), Gazipur *May 2024 – March 2026*

- Worked daily with real users on National University-related online services, learning where people struggle with forms and documents
- Handled online applications, PDF editing and document preparation accurately and on time

Print Designer | Modina Deco Tiles, Gazipur *2022 – March 2024*

- Recreated decorative tile artwork as precise vector designs; designed large-format Arabic and Bengali nameplate text for installations spanning 20+ tiles
- Produced exact full-size files for artwork beyond Illustrator's 227-inch canvas limit by working at reduced scale
- Worked with regional marketing teams across Bangladesh to deliver designs on time

Assistant Designer | Smart Design House, Gazipur *2021 (3 months)*

- Prepared print-ready files (colour separation, registration marks, trapping) from international buyer briefs

Design Trainee | R. Trading, Gazipur *2020 – 2021*

- Trained under a senior commercial designer; designed hang tags and care labels requiring exact measurement

EDUCATION

- Higher Secondary Certificate (HSC), Bangladesh Open University, 2025–2026 session (in progress)
- Secondary School Certificate (SSC), Science, Khailkur Badshah Mia Agrani High School, Dhaka Board, 2020, GPA 4.61
